Tobruk WW2: During an early morning raid, Jonah Cloake makes a split second decision. The fallout takes root and grows to overshadow his life and future relationships, especially with his wife and only son. Burying his guilt under a veneer of jibes and humour, Johah has succeeded in avoiding his past for decades.

Now as he nears the end of life, the aging Jonah reluctantly agrees to record his memoirs with a biographer and in the process, is forced to confront his demons.

Humorous and deeply moving, The Peppercorn Tree is a story of mateship, love, regret and reconciliation.
